

Geography

Why do oceans matter?

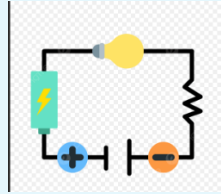

Children will explore the importance of oceans in regulating climate, supporting biodiversity and enabling trade. They will examine human impact on oceans and consider how we can protect these vital environments.

Science

Energy: Circuits, batteries and switches

Pupils will build and investigate electrical circuits, learning how components such as batteries, bulbs, buzzers and switches work together.

P.E

Invasion Games

Pupils will develop teamwork, passing, movement and tactical skills through invasion-style games. They will apply attacking and defending strategies in small-sided games.

MFL

Colourful Creatures

Children will develop vocabulary related to animals and colours, building confidence in speaking, listening, reading and writing French. They will use adjectives and simple sentence structures to describe creatures.

Computing

Skills Showcase: HTML

Pupils will learn the basics of HTML, understanding how web pages are structured and coded. They will apply their skills to create and edit simple web pages.

Spring 2

Mighty Oaks (Year 5/6)

2025-26

Writing

The pupils will use the text as inspiration for writing an autobiography.

R.E

Who was Jesus really?

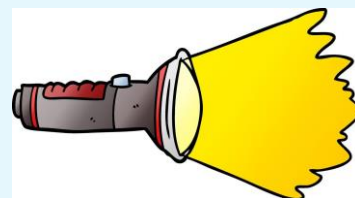

Children will explore different perspectives about Jesus, examining biblical texts and Christian beliefs. They will consider why Jesus is significant to Christians and others today.

D.T

Electrical Systems: Torches

Children will investigate and construct simple electrical circuits before designing and making their own functional torch. They will focus on design criteria, evaluation and improving their products

PSHE

Economic Wellbeing

Pupils will learn about money management, budgeting and making informed financial choices. They will also explore careers, enterprise and the skills needed for future employment.

Music

Haiku, Music and Performance (Hanami Festival Theme)

Pupils will explore the structure of haiku poetry and use it as inspiration for composing and performing music. They will develop performance skills while learning about the Japanese Hanami festival
